

## ***Graphic Logs***

*Graphic logs in the classroom*

*A P 30 min*

*Boards 1.8m long and 20cm wide are painted with a series of strata, e.g. 3 coal cyclothem, or interbedded breccias, dune sandstones and playa lake deposits.*

*The rock types are shown using different colours and the sedimentary structures are drawn on. Students must measure each unit and make a graphic log from their data.*
