

SYMMETRY WORKSHEET

For each letter or shape mark on the position of the mirror plane(s) of symmetry with a line or lines, and the position of the axis of symmetry if present. Type of symmetry axis means twofold, three fold etc. If there is no mirror plane or symmetry axis write none.

A C E H L

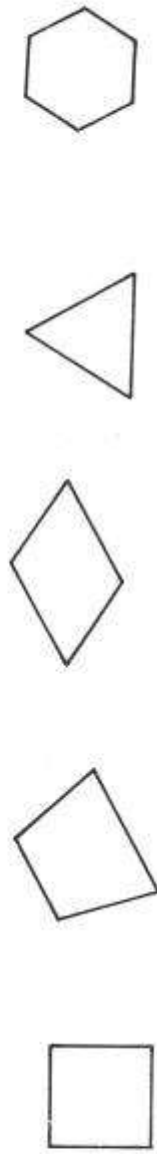

No of mirror planes

Type of symmetry axis

N P T X  $\Delta$

No of mirror planes

Type of symmetry axis

No of mirror planes

Type of symmetry axis
