

## **Activity W2: Long term demonstration of the water cycle**

Equipment

A bottle garden

A bottle garden will further demonstrate evaporation and condensation and can also be used to demonstrate transpiration as there are plants within the sealed environment of the bottle garden.

## **Activity W2: Water cycle song**

In this activity pupils are asked to make up a song about the water cycle. By putting “water cycle song” into a search engine like Google™ you will be able to find several songs at different learning levels. Examples are given below:
